

LakshPath 2.0 - Pitch Document

One-Liner

LakshPath is an AI-powered career guidance platform that takes students from "I don't know what to do" to "I'm interview-ready" — with personalized roadmaps, portfolio analysis, interview practice, and market intelligence.

The Problem

Indian students face a fragmented career guidance ecosystem:

- **No personalized direction** — generic career advice that doesn't account for individual strengths
- **Portfolio blindspot** — students don't know what recruiters actually look for on GitHub/LinkedIn
- **Interview anxiety** — no affordable way to practice with realistic feedback
- **Information overload** — scattered resources with no structured learning path
- **Market disconnect** — students prepare for roles that may not be in demand

70% of Indian graduates are not employable according to industry reports. The gap isn't talent — it's guidance.

The Solution

LakshPath is a **full-stack AI career copilot** that provides end-to-end guidance:

1. Career Discovery (Assessment Engine)

- 8-question adaptive career assessment
- AI-powered personality + skill profiling (Career DNA)
- Career matching with scores, salary data, and growth rates
- Identifies strengths, weaknesses, and ideal career paths

2. Structured Learning (Roadmaps)

- Auto-generated multi-phase learning roadmaps
- 12+ milestones per roadmap with curated resources
- Progress tracking with milestone completion
- SMART goal contracts auto-created for each phase
- Gamified with XP, badges, and streaks

3. Portfolio Building (GitHub + LinkedIn Analysis)

- GitHub portfolio scoring across all repositories
- Per-repo analysis: code quality, README quality, improvements
- LinkedIn profile optimization with ATS keyword scoring
- Before/after comparison with actionable suggestions

4. Interview Preparation

- 75+ curated questions (technical, behavioral, system design)
- AI-powered answer evaluation with scoring
- Progressive hint system (4 levels: nudge to full solution)
- Code review feedback
- Company-specific placement prep (20+ companies, 450+ questions)

5. Market Intelligence

- Real-time job market trends by domain
- Job description vs profile comparison
- Skill gap analysis for target roles
- 5-year career forecasting
- Scholarship matching

6. AI Mentor Chat

- Context-aware career mentor
- Interview prep mode
- Scholarship guidance
- Always available, always personalized

Key Differentiators

Feature	Others	LakshPath
Career Assessment	Generic quizzes	AI-powered with Career DNA profiling
Learning Path	Static course lists	Dynamic milestones with progress tracking
Portfolio Review	Manual	Automated GitHub + LinkedIn analysis
Interview Prep	Question banks	AI evaluation + hints + code review
Market Data	Job boards	Trend analysis + skill gap mapping
NSQF Support	None	Full vocational pathway support (ITI/Diploma)
Gamification	None	XP, badges, streaks, levels
Cost	Paid mentors	Free AI-powered guidance

Tech Stack

Frontend

- React 18 + TypeScript + Vite
- Tailwind CSS + Framer Motion (animations)
- Recharts (data visualization)
- Capacitor (mobile-ready)

Backend

- Node.js + Express + TypeScript
- Prisma ORM + SQLite (scalable to PostgreSQL)
- Google Gemini 2.0 Flash (AI engine)
- JWT + Google OAuth authentication

Architecture

- RESTful API with 100+ endpoints across 15 route groups
- 24 database models covering full user journey
- Demo fallback system (works even without AI credits)
- Path-aliased monorepo structure

Platform Stats

Metric	Count
API Endpoints	100+
Database Models	24
Frontend Pages	20
Interview Questions	75+ curated
Company Prep Guides	20+
NSQF Sectors	10+
Badge Types	4 categories (Common, Rare, Epic, Legendary)
Resume Templates	5

User Journey

Target Users

1. **College Students (18-24)** — Primary audience. Need career direction, skill building, interview prep.

2. **ITI/Diploma Students** — NSQF vocational pathway support for non-traditional education.
 3. **Career Switchers** — Skill gap analysis + learning paths for new domains.
 4. **Placement Cells** — Bulk student tracking and company-specific preparation.
-

Business Model (Potential)

- **Freemium** — Core features free, premium AI analysis and mentoring
 - **Institutional** — B2B for colleges and placement cells
 - **API Access** — Career assessment as a service
 - **Data Insights** — Anonymized skill/market trend reports
-

Traction & Roadmap

Built & Working

- Full assessment + career matching engine
- AI-powered roadmap generation with milestone tracking
- GitHub portfolio analysis (all repos, per-repo scoring)
- LinkedIn profile optimization
- Interview practice with AI evaluation
- Placement prep (20+ companies)
- NSQF vocational pathways
- Gamification (XP, badges, streaks)
- AI Mentor chat
- Market intelligence

Next Steps

- Mobile app (Capacitor ready)
 - Peer comparison features
 - College dashboard for placement cells
 - Regional language support
 - Real recruiter integration
-

Team

Ayush Sharma — Full-Stack Developer & Creator

- Built entire platform end-to-end
 - React + Node.js + AI integration
